Fanvil

Google GMS certification

Google Mobile Service Certified

Fanvil Standard Android Devices V76

Description

V76 is a Google Mobile Services certified device, giving you access to the Google Play Store and its suite of apps, allowing you to personalize your phone to suit your needs. Download your favorite apps, including Outlook, Teams, 3CX, and Zoom, to provide you with additional tools to perfect your business. The Fanvil Android Open Terminal opens all interfaces, enabling developers to install their own exclusive apps.

ZOOM   3CX

Google Play Protect

Main Features

❄ Standard Android Devices

The Fanvil SDK for third-party secondary development makes it an ideal choice for organizations looking to provide their users with a versatile, secure, and efficient means of accessing various services and applications.

CPU Qualcomm® Snapdragon™ 685

Qualcomm® Snapdragon™ 685 4xA73@2.8GHz is a powerful and efficient mobile platform that meets all your work and play needs.

Android 14

Android 14 is the latest version of Google's mobile operating system, and it comes with a host of new features and improvements that make it an exciting update for both users and developers.

High-Definition Audio

V76 has excellent audio quality that similar products do not have, built-in multiple smart functions such as echo cancellation and noise shielding, which can automatically remove interfering background noise.
